Serving joy through food

BANDIDOS® SWEET CHILI

Our Story

Tyson Foods History

In 1935, with just five cents in his pocket and a dusty old truck, John W. Tyson figured out a way to deliver superior chicken.

With passion, persistence and a pioneering spirit, Tyson Foods revolutionised the food industry by providing generations of families with wholesome, great-tasting food.

As tastes evolve, Tyson stays on top of consumer trends with fresh ideas and innovative products, expanding our portfolio and giving you delicious food. From farm to fork, Tyson adheres to strict standards to produce high-quality products.

Trust Tyson to deliver superior food, perfected by experts and prepared with passion for every occasion.

Culinary Innovation

Disruption isn't just reserved for the tech industry.
At Tyson Foods, we always stay at the forefront of emerging food trends. We have highly skilled, passionate and inventive culinary professionals pushing us forward. Our chefs are supplied with best-in-class market information and consumer insights to achieve their goal: develop innovative foods that surprise and delight – food that is conceived with both convenience and conscience in mind.

Building a more sustainable food system

At Tyson Foods, our purpose is to feed a growing world and continually raise expectations for how much good food can do. We're committed to delivering high-quality protein. As one of the world's largest food companies we also have responsibilities to build a more sustainable food system. Amongst other initiatives, we are working to reduce greenhouse gas emissions in our supply chain and manage forest degradation risks for commodities we rely on.
